MD1 Inc.
MD1 Continuum Version 1.16

To Drummond Group:

The Mandatory Disclosure statement of costs and any additional transparency information for our certified product(s) is attached to this letter and will be posted along with the required product information on our website here:

<https://md1health.com/mandatory-disclosures-and-complaint-information/>

***Note:** Your URL must include both the attached mandatory disclosure information and all bullets referenced in the Product Information section of this Mandatory Disclosures Instructions page.

We agree to notify Drummond Group of any and all future changes to our transparency and disclosures language for this certified product-version.

We understand and agree that the ONC Health IT Certification Program Final Rule statement gives Drummond Group, as an ONC-ACB, the sole responsibility for ensuring compliance and determining appropriate consequences if EHR technology developers fail to divulge accurate transparency and disclosures information.

We understand and agree that we will provide to Drummond Group copies of or give access to any and all websites, marketing materials, communication statements, and other assertions made by your organization regarding the ONC certification status of this product in a reasonable time to ensure the transparency and disclosures information is being accurately disclosed.

A handwritten signature in blue ink, appearing to read "W. Kyle Taylor".

Capability	Description of Capability	Costs or Fees <i>Types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of the implementation or use of the capability -OR- in connection with the data generated in the course using the capability</i>
170.315(a)(5) Demographics	Allows a user to electronically record, change, and access a patient's demographic data, including race, ethnicity, preferred language, sex, sexual orientation, gender identity, and date of birth in accordance with defined standards.	No additional costs.
170.315(a)(12) Family Health History	Allows a user to record, change, and access a patient's family health history in accordance with specified familial concepts or expressions.	No additional costs.
170.315(d)(1) Authentication, Access Control, Authorization	Allows for the verification of user access against unique identifiers for authentication and authorization of access.	No additional costs.
170.315(d)(2)c Auditable Events and Tamper-Resistance (Cures Update)	Allows for the recording of actions, audit log status, and encryption status of electronic health information. Audit log actions cannot be overwritten, changed, or deleted by the technology, and the technology can detect when audit logs have been altered.	No additional costs.
170.315(d)(3)c Audit Report(s) (Cures Update)	Allows a user to create an audit report based on specific time periods or entries.	No additional costs.
170.315(d)(4) Amendments	Allows a user to select the record affected by a patient's request for amendment and amend or deny amendments to those records.	No additional costs.
170.315(d)(5) Automatic Log-off	Automatically stops user access to health information after predetermined amounts of time and requires user authentication to resume or regain access.	No additional costs.
170.315(d)(6) Emergency Access	Allows an assigned set of users to access electronic health information during an emergency.	No additional costs.
170.315(d)(7) End-user Device Encryption	Ensures that technology is designed not to locally store electronic health information on end-user devices.	No additional costs.

170.315(d)(9) Trusted Connection	Allows for the establishment of trusted connections, encryption, and integrity at the message level and the transport level.	No additional costs.
170.315(d)(12)c Encrypt Authentication Credentials	Allows for the encryption of authentication credentials.	No additional costs.
170.315 (d)(13): Multi-Factor Authentication (Cures Update)	N/A	N/A
170.315(e)(3) Patient Health Information Capture	This functionally enables the EHR to electronically create syndrome-based public health surveillance information for electronic transmission in accordance to the HL7PHIN Messaging standard for Syndromic Surveillance.	No additional costs.
170.315(g)(3) Safety-enhanced Design	Defines the user-centered design processes that must be applied to certain certified capabilities within the product's scope.	No additional costs.
170.315(g)(4) Quality Management System	Requires the use of a quality management system (QSM) in the development, testing, implementation, and maintenance of certified capabilities within the product's scope.	No additional costs.
170.315(g)(5) Accessibility-centered Design	Requires the use of a Health IT accessibility-centered design standard or law in the development, testing, implementation, and maintenance of certified capabilities within the product's scope.	No additional costs.
